

# Abhishek Bhikule

## Frontend Developer

I am a problem-solver and a creative thinker with a passion for crafting visually appealing and engaging user experiences. My understanding of modern technologies and my track record of delivering dynamic, responsive web applications makes me an ideal fit for any team looking to build cutting-edge digital solutions.

### EXPERIENCE

#### Netflix Clone - Web App with Landing Page

[GitHub Link](#) || [Live URL](#)

Tech Stack: JavaScript, HTML, CSS, API

- Developed the web application that displays a new movie poster in the background section every time the page is refreshed.
- Utilized advanced JavaScript to retrieve and display data from an API, as well as HTML, CSS, and JavaScript to create the layout and design.
- Implemented a responsive and dynamic web application that changes with user actions.

#### BookMark Tracker - A Chrome Extension

[GitHub Link](#) || [Live URL](#)

Tech Stack: JavaScript, HTML, CSS

- Developed a Google Chrome extension that allows users to save and track bookmarked URLs
- Utilized Local Storage to persist the bookmarked URLs even after the browser is closed or the computer is turned
- Implemented a browser action that captures the URL of the currently active tab and adds it to the list of bookmarked URLs.
- Included a feature that allows users to delete a specific link by right-clicking on it and confirming the deletion with an alert message.

#### RememberMe - An address book

[GitHub Link](#) || [Live URL](#)

Tech Stack: JavaScript, HTML, CSS

- Developed a CRUD application project that defines several regular expressions to validate user input for a form.
- Utilized the DOM API to access and manipulate elements on an HTML page.
- Utilized event listeners to listen for user interactions such as a click on an update button, and take appropriate actions based on those events.

### SKILLS

JavaScript

HTML/CSS

Responsive Web Development

React

Bootstrap

SASS

Git

API

### EDUCATION

#### University of Mumbai

Bachelor of Engineering,  
Mechatronics Engineering.

2018-2021

Thane, Maharashtra

- CGPA:- 8.02

### VOLUNTEER EXPERIENCE

- [FrontendMentor.io](#) - Frontend Mentor provides designs so that we can practice the front-end skills using a real-life workflow. The challenges include designs (both mobile and desktop), assets, and a style guide to get started. Check out my [profile](#) or projects directly [here](#). which includes some projects with Form Validation, etc.
